CRIME SCENE INVESTIGATION

ROLMES™ REVOLUTIONIZES CRIME SCENE INVESTIGATIONS

Integrate crime scene findings with criminal case management

Named after master detective Sherlock Holmes, Rolmes™ short for Robotic Holmes is an innovative integration of hardware, software, and robotic technology to modernize crime scene investigations. It is accessible on scene and guarantees accurate evidence and data collection, providing a knowledge base for crime scene processing and offering crime scene technicians tools that meet the highest standards for identifying, processing, and collecting evidence. Rolmes™ was conceived in collaboration with world-renowned forensic scientist, Dr. Henry Lee.
